

Dear FCC:

I would like to make two points in opposition to this transfer to EchoStar Satellite L.L.C. of :

SAT-ASG-20050128-00017 Rainbow DBS Company LLC Call Sign(s): DBS 8701  
SES-ASG-20050131-00117 Rainbow DBS Company LLC Call Sign(s): E020248

1. This request undermines both the legislative desires of the U.S. Congress as well as the regulatory actions of the the Executive to implement and expand High Definition television in the U.S.A. EchoStar Satellite L.L.C. has shown through comment and practice no interest is expanding HDTV distribution where as Rainbow DBS Co. LLC has existed only to promote and increase the availability of HDTV to the American public.

2. I contend that the Rainbow DBS LLC leadership that agreed to this transfer acted against the founders' wishes and as subsequent actions have shown this transfer is in opposition to the current leadership of Rainbow DBS LLC. That the board that agreed to this sale did so selfishly and purposefully to undermine the growth of HDTV, Rainbow DBS LLC as well as the distribution of HDTV technology to the American public.

Market forces have been thwarted. As empowered through the Executive by the U.S. Congress to act in as caretakers of the American peoples' frequencies I ask you deny this transfer of licenses.
